This sales guide is to be used by sales staff as a training aid. It is not a sales tool and should not be shared with customers. Whilst care has been taken to ensure the information provided in this guide is accurate, no liability will be accepted for errors or omissions.

## 1. Introduction

SP 6430DN is a productive black-and-white printer that will meet workgroup demand for high-quality A3 and A4 output. The network ready printer supports PCL and PostScript printing and, when equipped with Nashuatec's genuine IPDS option, can also be used to print transactional data such as invoices and reports from mainframe systems.

SP 6430DN replaces SP 6330N in Nashuatec's black-and-white printer range. Running at a speed of 38 A4 ppm, SP 6430DN is faster than its predecessor, has an integral duplex, takes up less space and is more energy efficient. SP 6430DN also has a lower price point and lower running costs than SP 6330N, making it ideal for customers looking to reduce the total cost of ownership.

Although capable of producing A3 output, SP 6430DN is remarkably compact. Boasting the smallest footprint of any printer in its class - it is not much bigger than many A4 printers - SP 6430DN will release valuable desk space. Despite its compact design, SP 6430DN is equipped with an automatic duplex, a 100 sheet multi-bypass and 500 sheet front loading paper tray.

SP 6430DN has a duty cycle of 150,000 prints per month, which means it can easily handle peaks in volume. To support the needs of larger workgroups, the standard paper capacity can be expanded to 2,100 sheets with the addition of up to 3 optional paper trays. With auto tray switching enabled, SP 6430DN will print virtually non-stop.

SP 6430DN can handle a wide variety of media, enabling businesses to add impact to their print communication by using specialised media. All paper trays support media weights of 56 to 220 gsm, will hold a full ream (500 sheets) of paper, and can be used to feed plain and recycled paper, thick paper, pre-printed letterheads, labels and envelopes. The bypass will also feed OHPs.

SP 6430DN is ready within 17 seconds powering up and will deliver its first A4 print in less than 6.5 seconds, faster than any other printer in its class. To minimise energy consumption, an ECO Night Sensor puts the printer to sleep when dusk falls. In sleep mode the printer consumes just 1W, contributing to a best-in-class TEC (typical energy consumption) of just 2.3 kWh.

This guide explores the functionality of the products in more detail, explaining new features and identifying key selling points. It includes side-by-side comparisons with competitor products.

## 2. Sales Highlights

### Improve productivity

Ready to use within 17 seconds, SP 6430DN delivers its first A4 print in less than 6.5 seconds. Continuous output is produced at a brisk 38 ppm. With a 2,100 sheet maximum paper capacity and the ability to automatically switch between trays, SP 6430DN will maintain productivity throughout long print runs and, with its 150,000 page duty cycle, can easily handle peaks in volume.

- First print delivered within 6.5 seconds (best in class)
- Productive 38 ppm throughput
- 2,100 sheet maximum paper capacity
- Auto tray switching
- 150,000 page duty cycle

### Release space

With a footprint of just 0.18 m<sup>2</sup>, SP 6430DN takes up less space than other A3 printers in its class. Yet despite its compact design, SP 6430DN is equipped with automatic duplex, a 100 sheet multi-bypass and a 500 sheet front loading paper tray. The delivery tray will hold up to 500 prints and the network printer can be shared by workgroup users, reducing the need for personal printers.

- With a footprint of just 0.18 m<sup>2</sup>, SP 6430DN is the most compact A3 printer in its class
- Network printer can be shared by multiple users
- All paper trays hold a full ream of paper (500 sheets)
- The space-saving delivery tray is also capable of holding up to 500 sheets (best-in-class)
- Easy front-facing access to paper and consumables

### Reduce cost

SP 6430DN represents excellent value for money. It has a competitive retail price and high value features such as the duplex, network interface, PCL and PS3 print drivers are included as standard. The running costs are affordable too. The PCU and toner can be replenished independently, reducing the page cost and enabling SP 6430DN to be offered as TCO solution.

- Competitive price / high specifications
- A3 duplex printer, 38 ppm, 1,200 x 1,200 dpi
- Network ready, PCL and PS3 drivers
- Affordable page costs
- Separate component drum, toner and maintenance kit

## Connect seamlessly

SP 6430DN can be deployed in Windows and Mac print environments. It is equipped with a fast gigabit ethernet interface and supports PCL and PS3 printing. With the addition of the IPDS print option, it can be used to print transactional data such as invoices and statements from mainframe computer systems, alleviating the need for dedicated host print solution.

- Network ready with fast gigabit ethernet interface
- Support for a secondary print network (requires optional USB device driver)
- Point and click PCL and PS3 drivers
- Genuine IPDS print option (please check availability as not launching with mainframe)
- Support for Windows, Mac, Citrix and Novell NetWare

## Add value

SP 6430DN supports a wide range of media. Adding impact to print collateral and saving operator time, thick paper, envelopes and labels can be fed from regular trays and, to make them easier to read, reports, drawings and Gant charts can be printed on A3 paper. SP 6430DN produces high quality output with fine lines, clearly defined characters and smooth gradations.

- 1,200 x 1,200 dpi print resolution
- Fine lines, clearly defined characters and smooth gradations
- Feed thick paper, envelopes and labels
- 56 to 220 gsm simplex / 56 to 162 gsm duplex
- Print A6, A5, A4 and A3 paper formats and banners of up to 1,260mm in length

## Eco-friendly

SP 6430DN has a low TEC rating (typical energy consumption) of just 2.3 kWh and uses less energy than any other A3 printer in its class. To minimise energy consumption, an ECO Night Sensor puts the printer to sleep when dusk falls. In sleep mode the printer consumes just 1W. The network ready solution can be shared by workgroup users, reducing the need for multiple printers.

- Best-in-class TEC (total energy consumption) of 2.3 Wh
- On/off timer and low energy sleep mode reduces energy consumption
- ECO night sensor puts the printer to sleep when dusk falls
- Integral duplex (standard feature) reduces paper consumption
- Productive network printer can be shared by multiple users

### 3. Product Positioning

- Competitively priced A3 black-and-white printer
- Perfect for target multi-machine tenders
- Competitive retail price / excellent specifications
- The use of separate component consumables helps to reduce page costs
- Network ready replacement for personal printers
- Meets workgroup A3 and A4 print requirements

SP 6430DN is workgroup printer. Network ready, it can be deployed in Windows and Mac print environments and will meet the A3 and A4 print needs of busy workgroups. Users will benefit from its compact design, impressive productivity, extensive media support and simple point-and-print PCL / PS3 print drivers. SP 6430DN is positioned as a low cost / high value solution.

Excellent standard specifications such as A3/A4 printing, 1,200 dpi resolution, gigabit ethernet interface, duplex, 500 sheet paper tray and PCL/PS3 drivers add value whilst the competitive retail price enables it to compete favourably with leading competitor models such as HP L5200tn and Kyocera FS-6970.

## 4. Configuration and Ordering

### Hardware Configuration

SP 6430DN is a network ready A3 PCL/PS printer. The standard configuration includes a 500 sheet paper tray, a 100 sheet multi bypass and an integral duplex. 1, 2 or 3 additional 500 sheet paper trays can be attached. SP 6430DN can be mounted on a desk or used as a floor standing system when configured with the optional paper trays.

- 1 = 500 sheet delivery tray
- 2 = 100 sheet bypass (inside front cover)
- 3 = Duplex (internal, not shown)
- 4 = 500 sheet paper tray

### Hardware Options

- 1 = 1, 2 or 3 x 500 sheet paper trays

### Functional Configuration

Functional Configuration - SP 6430DN	
Network interfaces	Gigabit Ethernet (standard)
	Wireless (option)
	Parallel (option)
	Additional network interface (option)
HDD/document server	Option (250GB)
PCL printing	Standard
PostScript printing	Standard
IPDS printing	Option
XPS printing	Option

More peripheral and functional upgrade options are listed on the next page (see EDP Codes and Dependencies)

## EDP Codes and Dependencies

EDP Codes and Dependencies - SP 6430DN					
Category	Item	Product Name	EDP Code	Must Install	Cannot Install
Mainframe	Printer	SP 6430DN	407484	-	-
Paper Feed	550 sheets paper tray	Paper Feed Unit TK2010	407489	-	Maximum 3 units

Nashua	Toner Cartridge Black	Print Cartridge SP 6430E	407510	10,000 prints
	PCDU	Drum Unit SP 6430	407511	25,000 prints
	Maintenance Kit (220V)	Maintenance Kit SP 6430	407513	90,000 prints

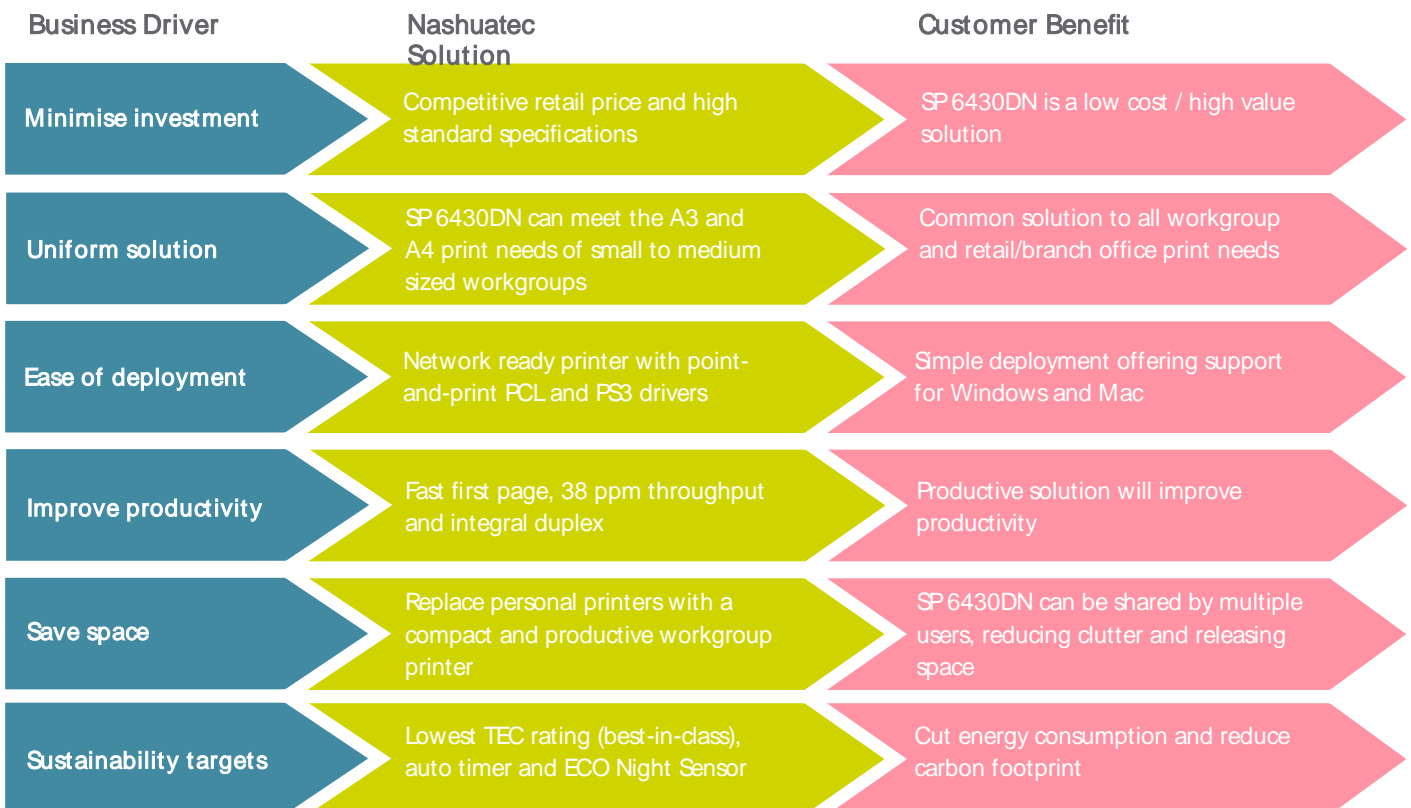

## 5. Target Markets

SP 6430DN is a low cost / high value print solution. With its competitive retail price and excellent specifications which include A3 and A4 printing, 1,200 dpi print resolution, gigabit ethernet interface, integral duplex, 500 sheet paper tray, PCL and PS3 drivers, SP 6430DN will appeal to large customers tendering for multi-machine placements.

Customers will include small to medium sized workgroups in SMBs, larger enterprises and local government; retail/branch offices of banks, insurance companies and travel agencies; and shared use by students in schools, colleges and universities. The advantages of SP 6430DN to these customer groups will include A3 and A4 printing, its compact design (it is little bigger than many A4 printers) and simple deployment in Windows and Mac print environments courtesy of standard PCL and PS3 drivers.

High-level business drivers for cost conscious customers are likely to include:

## 6. Key Features

Mainframe		
Feature	Advantage	Benefit
Compact design  <b>*** Best-in-Class***</b>  	SP 6430DN has a footprint of just 0.180 m <sup>2</sup> , little more than many A4 printers.	Saves valuable office space.
LED technology	A multi-source LED array is used in place of conventional single-source laser writer.	The miniaturised LED components save space and write data more quickly, enabling 1,200 x 1,200 dpi print to be produced at full engine speed.

Productivity		
Feature	Advantage	Benefit
Quick warm up	SP 6430DN is ready to print within 17 seconds of power up.	Saves time and improves productivity.
High speed engine	Continuous single-sided print output is delivered at 38 A4 ppm.	Multipage documents are produced quickly.
Fast first page  <b>*** Best in Class ***</b>	First print delivered in 6.5 seconds	Maintains productivity by producing one-off prints faster.

High speed duplex (standard feature)	Double-sided print output is delivered at 29 A4 ppm	There's very little reduction in productivity when printing two-sided.
Auto tray switching (requires optional 2nd, 3rd or 4th tray)	The printer automatically switches from one tray to the next.	Improve productivity by replenishing paper without interrupting the print process.

### Paper Handling

Feature	Advantage	Benefit
A3 print engine	SP 6430DN can handle paper formats from A6 to A3.	A single device will meet A3 and A4 print needs.
Large paper capacity 	The standard capacity of 600 sheets (500 sheet tray + 100 sheet bypass) can be expanded to 2,100 sheets (maximum) with the addition of 1, 2 or 3 x 500 sheet paper trays.	Hold different paper formats and stock online and reduce downtime related to paper replenishment.
Thick paper support  <b>*** Best in Class ***</b>	All paper trays and the bypass support media of 56 to 220 gsm and the duplex supports media of 56 to 162 gsm.	Add impact by printing onto thick paper, letterhead paper and other non-standard media.
Envelope printing	The paper trays and bypass also support envelopes and labels.	Speed mailing process by printing addresses onto envelopes.

### Quality

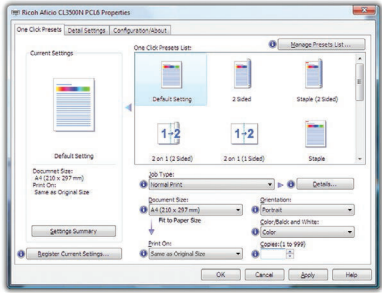

Feature	Advantage	Benefit
High resolution printing	SP 6430DN supports 300 dpi, 600 dpi and 1,200 dpi print resolutions.	Immaculate print output with fine lines, clearly defined characters and no background spatter.

### Connectivity

Feature	Advantage	Benefit
Network ready	SP 6430DN is equipped with a gigabit ethernet interface and there is wireless interface option.	Workgroup users can share the same device, improving access.
Additional network interface	The optional USB device driver allows SP 6430DN to connect to a second (different) print network.	Improves versatility as one printer can support two print networks.

### Printing

Feature	Advantage	Benefit
PLC and PS3 printing	SP 6430DN supports PCL and PS3 printing.	Files are processed in the printer, speeding the print process and improving accuracy.

<p>Point and print icons</p> 	<p>The PCL and PS3 print drivers have graphic icons which allow single click selection of complex settings.</p>	<p>Simplifies the print process, saving time.</p>
<p>PDF direct print</p>	<p>PDF documents can be printed directly to the PostScript enabled printer. The files are processed by the printer rather than the PC.</p>	<p>Releases computer resource and reduces network traffic.</p>
<p>XPS direct print (option)</p>	<p>SP 6430DN also supports XPS direct print. XPS is an XML based document format similar to PDF which is being promoted by Microsoft.</p>	<p>Compatible with newly emerging print format.</p>
<p>IPDS print (option)</p>	<p>The genuine IPDS option enables fast, error-free bi-directional communication with mainframe (host) computer systems.</p>	<p>Improve ROI by printing transactional data such as invoices and statements.</p>
<p>Mail to Print (requires optional HDD and VM card)</p>	<p>Send an e-mail with attached data directly to the MFP for printing.</p>	<p>Improves access and simplifies print process.</p>

Security		
Feature	Advantage	Benefit
<p>Hard disk drive option</p>	<p>250 GB hard disk drive.</p>	<p>Enables workflow features such as locked print.</p>
<p>DataOverwrite Security (requires optional HDD)</p> 	<p>Overwrites temporary data held on the hard drive with random data.</p>	<p>Protects security by ensuring that temporary data cannot be recovered.</p>
<p>HDD Encryption (requires optional HDD)</p>	<p>Encrypts the address book, authentication information and stored documents.</p>	<p>Protects security by encrypting documents.</p>
<p>Locked print (requires optional HDD)</p>	<p>Confidential print can be password protected and held in the document server until released by the originator.</p>	<p>Protects document confidentiality.</p>
<p>Quota scheduling (requires optional HDD and VM card)</p>	<p>The administrator can limit the output of individual users and user groups by setting page count limits.</p>	<p>Establishes governance over the print environment and reduces print volume.</p>
<p>Banner page print (requires optional HDD and VM card)</p>	<p>A job sheet can be printed before a print job which identifies the originator.</p>	<p>Makes it easier to identify work in a busy environment.</p>
<p>Mandatory security information (requires optional HDD and VM card)</p>	<p>Automatically append security information such as the user ID, date, time, IP address and printer serial number to every document printed.</p>	<p>Improves document security by establishing a printed audit trail.</p>

## Environment

Feature	Advantage	Benefit
Power on/off timer	The power on/off timer switches the machine on and off at specified times.	Ensures the machine is ready for use and saves energy by switching the machine off when it is not required.
ECO Night Sensor	The ECO Night Sensor will switch the printer to energy saving sleep mode when dusk falls.	Minimises energy consumption.
Low TEC (typical energy consumption)  <b>*** Best in Class ***</b>	In sleep mode SP 6430DN consumes just 1 W energy, contributing to a low best-in-class TEC rating of just 2.3 kWh.	Save energy and reduce carbon emissions by using energy efficient technology.

## 7. Specifications

Mainframe Specifications - SP 6430DN			
Warm-up time	16.6 seconds		
First output speed	B/W	6.5 seconds	
Print speed	B/W	A4	38 pages per minute
	B/W	A4 duplex	29 pages per minute
Memory	Standard	512 MB

## 8. Service and Supplies

- One year return-to-base warranty
- Extended warranty option includes on-site repair / exchange
- 20,000 page maximum recommended volume
- 150,000 page duty cycle (peak volume loading)
- High yield toner (10,000 pages)
- PCU, toner and maintenance kit can be replenished independently

SP 6430DN should be maintained by a trained service engineer.

Like other Nashuatec printers and MFPs, service is likely to be offered on a toner inclusive Pay per Page (PpP) basis.

PpP servicing offers the following customer advantages:

- Visibility and control of print costs
- Transparent all-inclusive price
- Low pre-agreed page cost
- Dedicated national/international service operation
- Remote monitoring and diagnostics (@Remote)
- Telephone and field support

The average monthly print volume of devices in this class is 3,000 pages. With a maximum monthly recommended volumes of 20,000 pages, SP 6430DN will easily meet typical demand and, with a duty cycle of 150,000 pages, can also handle occasional peaks in print volume.

Rather than an all-in-one cartridge, SP 6430DN uses separate component consumables. The OPC drum, toner cartridge and maintenance kit can be replaced independently of each other, increasing yield and reducing costs. The toner cartridge is a high yield cartridge capable of producing approximately 10,000 prints.

Consumable data is provided below:

Service and Supply Specifications - SP 6430DN		
Toner <sup>1</sup>		10,000 prints
Photoconductor		25,000 prints
Maintenance Kit		90,000 prints
Print Volume	Average Monthly Print Volume	3,000 prints
	Maximum Monthly Print Volume	20,000 prints
	Duty Cycle	150,000 prints
Machine life		5 years or 1,200K prints

<sup>1</sup> A4 paper, 5% toner coverage

## 9. Competition

- 38ppm throughput improves productivity
- Fast first page saves time & reduces print bottlenecks
- Main tray holds a full ream of paper and capacity can be expanded to 2,100 sheets
- Add value by printing onto heavy weight media
- Compact design saves valuable desk space
- Eco Night Sensor automatically turns the printer off, saving electricity

### Five Star Advantages

We have compared the specifications of the new printer against the specifications of its closest competitors, identifying five star advantages against each.

Data was obtained from the web and from brochures. Whilst care was taken to ensure that information is accurate, no liability will be accepted for errors and omissions.

Automatic Duplexing	Standard	Standard	
Duplex Paper Weight	52 - 163	60 - 120	Capable of printing double-sided onto heavyweight media
Duplex speed	29	No info	Higher duplex speed means saving time and money
<b>SECURITY SPECS</b>			
HDD Overwrite	Option (Incl in HDD option)	INA	Suitable for use in secure environments
HDD Encryption	Option (Incl in HDD option)		Suitable for use in secure environments
Secure Print	Standard	Standard	
Print from USB / SD card	NA	Standard	
<b>ADDITIONAL INFORMATION</b>			
Monthly Duty Cycle	150,000 impressions	150,000 impressions	
Display/Characters	LCD/4 lines	INA	
Energy Star Compliance	Yes	Yes	
Energy Used in Power Save Mode	0.57W	INA	Power save mode reduces energy consumption
Max Power Consumption	1073 W	976W	
TEC Value	2.3 Kwh	INA	Low overall energy consumption minimises carbon footprint
Weight (Base Unit)	22.5 kg	19.5 kg	
Dimensions (HxWxD)	459 x 392 x 347.5 mm	285 mm x 469 mm x 395 mm	Smaller footprint so takes up less space ★
<b>TONER</b>			
Coverage: ISO/IEC 19752	Black starter cartridge; Yield: 6,000	Black Starter cartridge; Yield: 7,500;	
Coverage: ISO/IEC 19752	Black print cartridge Yield: 10,000;	Black toner cartridge Yield: 15,000;	
<b>OPTION INFORMATION</b>			
	Paper drawer 500 sheets (max 3)	Optional Paper drawer 250 sheets (max)	Smaller extra paper trays (only 250 sheets) so only half ream of paper
	XPS Direct Printing	PF-430 Output tray (from 250 - 500 sheets) extra Paper tray required	
	Netware Option	PS-1109 Interface 10/100/1000BaseTX Gigabit Ethernet	
	IPDS Option	PS-1129 Interface 1000BaseSX (SC) Gigabit fiber optic (870LN00068): £599	Save money by using same device for mainframe reports
		HD-5A 40-GB HDD PS-159 Interface 802.11b/g	
<b>COMMENTS</b>			
	Eco Night sensor for auto Switch off and electricity saving 297 x 1260 mm poster printing		

	Nashuatec SP 6430DN	HP LaserJet Enterprise 700 M712n / M712dn	Advantages / Benefits
<b>GENERAL SPECIFICATIONS</b>			
Configuration	Desktop	Desktop	
Speed (Mono/Color)	38 ppm	41 ppm	More productive / saving time
Unenhanced Resolution (HxV)	1,200 x 1,200 dpi	1200 x 1200 dpi	
Technology	LED	Laser	LED means 1200 * 1200 dpi printing at full engine speed / Smaller components save space and reduce energy consumption
Processor/Bits/MHz	533 Mhz	INA/INA/800	Faster processor will allow to process print jobs faster saving time (and money)
Memory Capacity (Std/Max)	512 MB/1 GB	512 MB/1 GB	
Hard-Disk Drive	Optional 250GB	NA	Optional hard drive capable of storing more information and with extra security options
FDLs/Emulations	PCL6/5e, Adobe PostScript3, PDF	PCL 5e/6, PostScript 3	
First-Page-Out Time	6.5 sec	10.5 sec	Fast first page saves time & reduces print bottlenecks ★
Warm up time	16.6 sec	13 sec (from sleep)	Faster ready from sleep
<b>INTERFACE/CONNECTIVITY</b>			
Std Interface	Gigabit Ethernet (1000/100/10BASE-T), USB2.0, USB2.0-Host	10/100/1000BaseTX Ethernet, USB 2.0 (host), USB 2.0	
Opt Interface	IEEE1284/ECP, IEEE802.11a/b/g/n, USB Device Server	802.11b/g/n	
Network Support	Windows, Mac, Citrix, NetWare, SAP R/3, UNIX	Windows, Mac, Linux, UNIX	Support for thin client printing (Citrix and NetWare)
Embedded Software Platform	Yes	Not applicable	Allows running customer specific applications
<b>PAPER IN &amp; OUTPUT</b>			
Std Paper Source(s)	2 (1 * 500 + 100 Sheet Bypass)	3 (2 * 250 + 100 Sheet Bypass)	Simplifies storage as main tray holds a full ream of paper. Higher capacity allows longer print runs
Std/Max Paper Capacity	600 sheets/2,100 sheets	600 sheets/4,600 sheets	Higher capacity allows longer print runs
Max Paper Size (WxL)	297 mm x 420 mm	A3	
Paper Weights	56 to 220 gsm	60 to 120 gsm	Add value by printing onto heavyweight media ★
Std Output Tray Capacity	500 sheets	250 sheets	Higher capacity means longer uninterrupted print jobs saving time and money
Bypass Capacity/Weights	100 sheets / 56 to 220 gsm	100 sheets/60 to 199 gsm	Capable of printing onto heavyweight media
Max Paper Source(s)	5	5	
Automatic Duplexing	Standard	Optional (M712dn standard)	Duplex as standard ★
Duplex Paper Weight	52 - 163	60 - 120	Capable of printing double-sided onto heavyweight media
Duplex speed	29	26	Higher duplex speed means saving time and money
<b>SECURITY SPECS</b>			
HDD Overwrite	Option (Incl in HDD option)	Not applicable	Suitable for use in secure environments
HDD Encryption	Option (Incl in HDD option)	Not applicable	Suitable for use in secure environments
Secure Print	Standard	INA	
Print from USB / SD card	NA	Standard	
<b>ADDITIONAL INFORMATION</b>			
Monthly Duty Cycle	150,000 impressions	100,000 impressions	Higher peak printing capacity ★
Display/Characters	LCD/4 lines	LCD/4 lines	
Energy Star Compliance	Yes	Yes	
Energy Used in Power Save Mode	0.57W	6.1W	Power save mode reduces energy consumption
Max Power Consumption	1073 W	INAW	
TEC Value	2.3 Kwh	3.289KWh	Low overall energy consumption minimises carbon footprint
Weight (Base Unit)	22.5 kg	38.5 kg	
Dimensions (HxWxD)	459 x 392 x 347.5 mm	392 mm x 568 mm x 596 mm	Smaller footprint so takes up less space ★
<b>TONER</b>
